The United States Navy, its warships and aircraft--and above all its sailors-- guarded the ramparts of the containment wall from the beginning of the so-called "Cold War" to its victorious end. Soon after Stalin pressed Turkey and Iran for territorial and other concessions in 1946, Truman dispatched battleship Missouri (BB-63), an unmistakable ...

Sweden played a role of major importance during the Cold War, despite not officially participating. Sweden's location made it an ideal base of operations for both the Soviet Union and the United States. Sweden was never invaded throughout the war, mainly due to their strong defensive power - ranked among the top five in the world at this time.

Military equipment of Sweden during the Cold War - Wikipedia

The Cold War Fleets. The naval forces of the two superpowers were obviously the most studied in the context of the Cold War. Both constituted by far the cornerstone of their respective military organizations. NATO included countries of Western
