Tekonsha - Brake Controllers

The Voyager® incorporates patented braking sensor by Tekonsha and is the best value you will find for smooth and secure trailer braking. It is compact size and features, like a bicolored LED brake monitor (to assure a complete connection to trailer brakes and give an indication of relative braking power being applied) make the Voyager® extremely versatile.

Tekonsha - Trailer Brake Control - Proportional

Tow the trailer on a level, dry, traffic-free paved surface at 25 mph. Apply the manual slide knob on the controller. If the trailer brakes lock up, adjust the power knob counterclockwise to reduce the braking power. If there is insufficient braking of the trailer wheels, adjust the power knob clockwise to increase power.
